## It's the perfect fit

David and Cathy Pasternak love to spend time entertaining friends, so they searched for the apartment that would serve as the best place. "I host my bridge group in our apartment. There's plenty of space to entertain," says Cathy. "Moving here has released the burden on our children. Our daughter can never reach us on the phone. She says we must be having way too much fun!" David laughs.

*"Our two bedroom apartment home fits us perfectly. The second bedroom serves as a den and computer room. We also use it as a guest room when family and friends visit."*

## It's just right for me

Gustie Widmer was looking for an apartment to fit her active lifestyle and her budget. She found her match with a one bedroom, one bath home. "I chose a one bedroom apartment because I don't need a ton of space and didn't intend to be in it much. With all the activities, I'm busy!" she says. Gustie takes both water aerobics and tai chi three times a week. "I'm starting a weekly ceramics class, and I often meet friends for lunch and dinner," she adds.

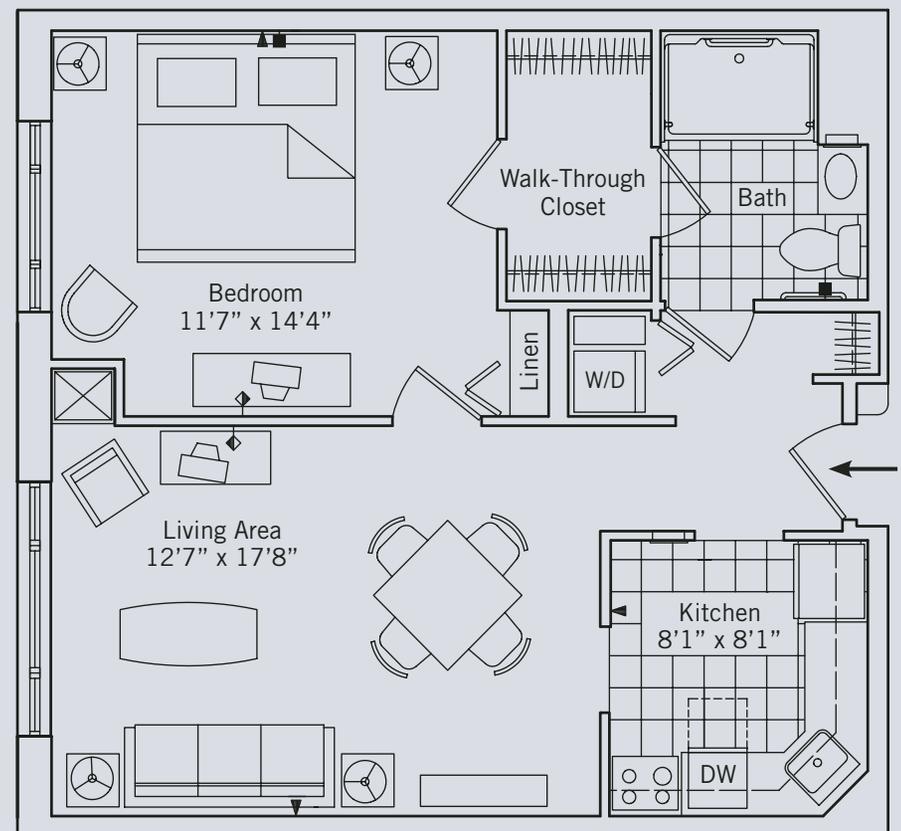

*"The staff here is wonderful. If you need anything in your apartment home, they are very responsive."*
